The Hospital.

There will be an important meeting of the Association held at Mrs. C. E. Wilson's residence next Thursday at 3:30 o'clock. A large attendance is desired, as matters of vital importance will come before the meeting.

The blue print plan of the proposed hospital building has been received from Smith and Carrier, the eminent architects of Asheville. Mr. Smith of that firm will also come over and inspect the building frequently during its construction. The ladies of the Hospital Association feel under deep obligations to that gentleman, who has made no charge whatever for the plan and who will watch its construction gratis, also.

The plan shows a very handsome building. There will be four private rooms, 12 beds in the wards, sterilizing room, etheretic room, operating room, and a charmingly situated living room, besides accommodations for the nurses and matron.

There is ample porch room, and a most attractive entrance is shown in the plan.

The building itself will be a credit to the city, and, in its appointments especially in the operating room, will be second to neither Biltmore or any hospital in Asheville.

Three things to give—alms to the needy, comfort to the sad, and appreciation to the worthy.

Three things to desire—the blessing of God, an approving conscience, and the fellowship of the good.

Three things for which to work—a trained mind, a skilled hand, and a regulated heart.—Leadership.

The Lake Scheme is Blocked!

Mr. Henry Justus, owner of the most unique ox cart special delivery wagon in the state, states that his house will be destroyed by the lake and that he absolutely refuses to move said house unless he is paid thirty-nine good old dollars in the coin of the realm. Henry says he hates to be taken as lacking in public spirit, but it will cost him that much to move his residence, and he intends to stand firmly on that position.

A little two line local in this paper of a horse for rent brought eighteen inquiries.

A three liner of chickens for sale brought more buyers than the advertiser could sell.

A four liner of a house for sale at \$2500 brought fourteen inquiries in one week.

A little one for help wanted, inserted by W. H. Justus, filled the place immediately.

These are only a few of the recent results from advertising in this paper. What it has done for others it will do for you. Five cents a line. And it brings results.

When the "Queen Quality" sales surpass those of all other women's shoes in the world, there must be a reason for it. See our window display of these famous shoes, then let us prove this claim with just one pair. In all styles shapes and leathers \$3.00—\$3.50—\$4.00.
